

QUANTIFICATION, BENCHMARKING AND STEWARDSHIP OF VETERINARY ANTIMICROBIAL USAGE

FIRST INTERNATIONAL CONFERENCE

27 & 28 February – Ghent, Belgium

The AACTING consortium cordially invites you to the 1st Int'l Conference on **quantification, benchmarking and stewardship of veterinary antimicrobial usage**. The conference aims at **uniting** and **inspiring** people involved in these fields of emerging interest. It will focus on **technical** and **organisational** aspects of the **set-up of systems** for quantification and benchmarking of veterinary antimicrobial usage and their **applications** as well as **results** within the scope of veterinary stewardship.

Tentative programme

27 February 2018

- 13:30 Conference opening
PROF. JEROEN DEWULF, CHAIR AACTING
- 13:45 AACTING: a state-of-the-art of monitoring systems for herd-level antimicrobial usage quantification
DR. WANNES VANDERHAEGHEN, AMCRA SCIENTIFIC UNIT
- 14:30 Analysis of herd level antimicrobial usage in pigs and poultry in 9 European countries based on EFFORT data
DR. STEVEN SARRAZIN, GHENT UNIVERSITY
- 15:45 - 17:00 Methodology of existing veterinary antimicrobial usage monitoring systems
FOUR SELECTED ORALS

28 February 2018

- 8:45 Quantification of human antimicrobial usage
SPEAKER TBA
- 9:30 Implementation of stewardship measures for veterinary antimicrobial usage in various countries
PROF. PETER DAVIES, UNIVERSITY OF MINNESOTA
- 10:45 - 12:00 Application of antimicrobial usage monitoring systems for stewardship
FOUR SELECTED ORALS
